William A. Bornstein, MD, PhD, has been the Chief Quality Officer of Emory Healthcare, Inc since 2003 and Chief Medical Officer of Emory Healthcare since 2006. In these roles, he leads the development of a quality and safety program that has been highly successful and recognized by a number of awards. In 2006, he led a major expansion of the Emory Healthcare quality program with the formation of a new Emory Healthcare Office of Quality. He serves as a Trustee of Emory Johns Creek Hospital. He completed his residency training in internal medicine at Duke and his fellowship in endocrinology and metabolism at the Massachusetts General Hospital (MGH) and Harvard Medical School. He is a Board-certified internist and endocrinologist and continues to care for patients. Dr. Bornstein received his undergraduate degree in mathematics from Dartmouth College and his MD and PhD from the Medical College of Georgia.
