Dr. Andra L. Blomkalns is an Associate Professor and Vice Chair at the University of Cincinnati Department of Emergency Medicine and on the Board of Directors of the Society for Academic Emergency Medicine. She received her medical degree from Louisiana State University and completed her residency in Emergency Medicine at the University of Cincinnati. Dr. Blomkalns' research interests include sex differences in acute coronary syndrome diagnosis and treatment, emergency department risk stratification, dyslipidemias and inflammation in atherogenesis and the impact of obesity in the critically ill. Her NIH funded lab focuses on the acute dietary effects on perivascular adipose tissue and vascular disease.

When not perseverating over catastrophes within and around the G.I. tract, Dr. Blomkalns enjoys hiking and planning travel adventures.

Topics: "GI Emergencies: The Here and Now... and Maybe Later"

Time: 11:00 a.m. - 12:00 p.m.

Date: Tuesday: March 19th, 2013

Place: Steiner Auditorium, Grady Campus (Grady Campus)
